COMPREHENSIVE FEATURES -ADAPTED TO YOUR NEEDS

daylight offers process support from product development to bill collection - tailored to your needs and integrated into your IT environment.

Plan and organise

Define and structure your education and training products with all procedures and processes, and efficiently provide the human and material resources required.

Publish and market online

Publish your education and training products online directly from daylight and update the content completely automatically. Using integrated best-of-class applications such as MailChimp, you can conduct efficient online marketing campaigns.

Automate the registration process

Manage registration, cancellation and re-registration with customised workflows. Registration rules, automatic guided registration and waiting lists as well as numerous self-service functions relieve you of long-term pressure.

Integrated charging into the financial management system

You can make fully integrated invoicing into your accounts. E-payment, direct debit, instalment payments, partial and bulk invoices, multiple currencies, integrated billing for additionally ordered items - daylight offers you maximum flexibility.

Perform efficiently

Information and documents are always available anytime, anywhere. Authorised users can centrally view up-to-date student and absences lists, timetables, assessments etc. at any time and download documents.

Analyse and optimise

Extensive statistics and analysis functions provide valuable information to optimise products and use of resources.

"EVERY YEAR WE MANAGE HUNDREDS OF STUDY AND TRAINING EVENTS EFFICIENTLY WITH DAYLIGHT."

Lydia Gacond, IT Application Supervisor and Project Manager, Intercantonal University of Applied Sciences of Special Needs Education, Zurich

DAYLIGHT MAKES YOU MORE SUCCESSFUL - EVERY DAY

Use your valuable time to refine the content of your proposal instead of routine administrative tasks and market your products more successfully.

More time for the essential things

daylight comprehensively relieves you of time-consuming administrative work, leaving you more time for conceptual tasks and customer care.

Better customer service

Provide guick and competent information for inquiries, capture leads seamlessly and process them systematically. Provide effective self-service features and interaction options to your customers.

Increased productivity

Modularise your proposal and use efficient workflows to speed up processes and eliminate sources of error. daylight's ease of use contributes significantly to increases in productivity.

"YOU CAN SENSE THE EXCEPTIONALLY HIGH COM-MITMENT AND THE CUSTOMER FOCUS FROM THE **DAYLIGHT TEAM.**"

Mario Sager Founder and CEO MS Sports AG, Rickenbach, Lucerne

More successful marketing

Thanks to evaluation and analysis functions as well as integrated marketing tools, you can speak to different target groups and use existing up-selling or cross-selling potentials.

More transparency

With daylight you always have an overview of your financial situation and your resources. The software has feedback features that allow you to obtain appraisals and suggestions from your customer base so you can optimise your products.

ADAPTED TO YOUR INDIVIDUAL NEEDS

The specialists at daylight AG adapt the software to suit your needs and processes, then integrate it seamlessly into your existing IT environment.

daylight is available as locally-installed software (on premises) or as "software-as-a-service" (on demand). In both cases, daylight AG integrates the solution seamlessly into your existing IT environment and adapts it to your individual needs and processes. daylight offers a website 'out of the box' where you can efficiently present and manage your education and training products online. Upon request, the daylight AG team will also implement a complete web presence with CMS (TYPO3) for you.

Proven methodology for integrating The professionals at daylight AG rely on the tried and tested MSF model (Microsoft Solution Framework) for integration, which enables systematic planning and implementation of sophisticated software projects. So much so that you as a customer can keep control and maintain influence in all

Advantages:

- Synchronisation of business and technology objectives
- Definition of clear project goals, roles and responsibilities
- Distinct processes with milestones and checkpoints
- Proactive risk management
- Effective response to change

"WE WERE ABLE TO REPRODUCE PROCESSES 1: 1 WITH DAYLIGHT AND INTEGRATE SUCCESSFULLY IN OUR HETEROGENEOUS SYSTEM LANDSCAPE."

> Dr. Urs Hassler, Project Manager ID Software Project Services, ETH University Zurich Katharina Leith, Director of IT Support for non-academic courses, ETH University Zurich

project phases.

A SOLID PARTNERSHIP -**TODAY AND IN THE FUTURE**

daylight AG emerged from the business

division of a prestigious consulting firm, specialising in IT consulting services and IT solutions in the education sector. It has been developing and implementing innovative IT solutions since 2005 and works for companies and organizations of all sizes.

daylight AG was founded by Marco Lendi, Alex Grossmann and Frederik Schaller. In addition to the founding trio, the daylight AG team today includes several qualified and certified computer scientists.

As a core competence, daylight AG develops, distributes and implements its own daylight software solution and offers complementary services based on TYPO3 and Microsoft technologies. daylight AG is a Microsoft Gold Partner.

"TO OUR CUSTOMERS WE WANT TO BE A RELIABLE PARTNER THAT THINKS FOR ITSELF AND DEFINES ITSELF TODAY AND TOMORROW."
